

ALLEGATO B

Curriculum Vitae

Mohsen Kohrangi

INFORMAZIONI PERSONALI **Mohsen Kohrangi**

Sesso | Data di nascita 1984 | Nazionalità

POSIZIONE PER LA QUALE SI
CONCORRE**Incarico di supporto amministrativo all' "Attività di ricerca nell'ambito del progetto europeo METIS: methods and tools innovations for seismic risk assessment for nuclear power plants"**ESPERIENZA
PROFESSIONALE2019–to date
(3 years)**Risk Assessment Consultant**

- Focused on the analysis of earthquakes and tropical cyclones impact and on the development of risk models, focusing especially on the development of vulnerability models, the generation of exposure databases and on the elaboration of loss assessment analyses. The research interests include risk related topics such as performance-based earthquake engineering, ground motion record selection, ground motion prediction equations, spectrum matching and portfolio loss estimation.

Attività o settore Risk Engineering2016–2018
(3 years)**Assegno di ricerca**IUSS Pavia, Piazza della Vittoria, 15, 27100 Pavia PV, Italy. <http://www.iusspavia.it/home>

- Scientific research in the field of earthquake risk assessment, ground motion prediction equations, record selection.

Attività o settore Tecnica delle costruzioni Classe: Scienze, Tecnologie e Società2017
(1 year)**Research assistant**Technical University of Isfahan, National Elites Foundation. <https://www.iut.ac.ir/en/danshgah-snty-asfhan>

- Scientific research in the field of urban seismic risk assessment.

Attività o settore Department of civil engineering2011-2012
(1 year)**Research assistant**Instituto Superior Técnico, Av. Rovisco Pais 1, 1049-001 Lisboa, Portugal. <https://tecnico.ulisboa.pt/en/>

- Research fellowship on the project of 'Nonlinear Static Methods for the Assessment/Design of 3D irregular structures', task5 which intends to compare different nonlinear static procedures on the irregular structures: buildings and bridges. www.3disp.org.

Attività o settore Department of civil engineering2011-2012
(1 year)**Research assistant**EUCENTRE, Via Adolfo Ferrata, 1, 27100 Pavia PV, Italy. <https://www.eucentre.it/?lang=en>

- Research assistant on the project of "Seismic vulnerability of European RC frame buildings".

Attività o settore Department of construction and infrastructure

2007-2009

Structural design engineer

- (2 years) Dynasys Consulting Engineers, Tehran, Iran.
- Seismic design of complex RC and Steel structures in Iran
- [Attività o settore](#) Seismic design office

ISTRUZIONE E FORMAZIONE

- 2012-2015 (3 years) **Dottorato di ricerca: Ingegneria sismica e sismologia** 8
 IUSS Pavia, Italy. <http://www.iusspavia.it/home>
- **Course work:** Earthquake Geotechnical Engineering, Nonlinear Seismic Analysis of structures, Fundamentals of Seismic Design, Seismic Design of Foundations, Seismic Design of Masonry Structures, Performance based earthquake engineering for tall buildings, Reliability analysis.
 - **Ph.D. dissertation:** "Beyond Scalar Intensity Measures for seismic risk assessment"
 - The study is focused on investigation of innovative solutions to increase the accuracy of probabilistic seismic risk assessment.
 - Development and application of vector probabilistic seismic hazard analysis program to be used in probabilistic seismic demand analysis and building-specific loss estimation.
 - Development of advanced record selection approach based on conditional spectrum based method conditioning on alternative intensity measures.
 - Development of a methodology for consideration of the site-to-site variability in seismic portfolio loss estimation in record selection and incorporation of fragility functions.
- 2009-2011 (2 years) **Master of Science Degree in Earthquake Engineering & Engineering Seismology (MEEES)** 7
 University of Grenoble, France. <https://www.univ-grenoble-alpes.fr/english/>
 IUSS Pavia, Italy. <http://www.iusspavia.it/home>
 University Of Patras, Greece. <http://www.upatras.gr/en>
- **Course work:** Experimental Methods in Earthquake Engineering, Advanced Material and Seismic Retrofit, Static and Dynamic Soil-Structure Interaction, Structural Dynamics and Earthquake Engineering, Seismic Design of Prefabricated Concrete and Timber Structures, Numerical Methods in Structural Engineering, Displacement-based Design of Bridges.
 - **Master dissertation:** "Seismic Assessment of a 15-storey RC Building, AltoRio, Damaged in the Earthquake of Chile, 2010". Investigating the likely reasons for the damage of the case study structure and examining if the available codes and the current analysis tools are capable of addressing the observed event.
- 2007-2009 (2 years) **Master of Science Degree in Earthquake Engineering** 7
 Amirkabir University of Technology (Tehran Polytechnic), Tehran. <https://aut.ac.ir/>
- **Course work:** Advanced Engineering Mathematics, Dynamics of Structures, Earthquake Resistant Building Design, Finite Element Methods, Earthquake Engineering, Soil Dynamics, Risk Analysis of Structures against Earthquake, Advanced Steel Structures
 - **Master disertation:** "Seismic Performance of Friction Damped Steel Structures in Near-Field Earthquakes". Developing a performance based seismic design method for design of steel structures equipped by frictional bracing systems as well as introducing a method to optimize the corresponding sliding strength of the friction device; with consideration of the Fling and Directivity effects, in near-field events.
- 2003-2007 (4 years) **B.SC. Degree in civil engineering**
 Azad University of Najafabad, Isfahan, Iran. <https://www.iaun.ac.ir/>
